9846832074
Kathmandu, Nepal

Summary

Senior AI Engineer and Backend Specialist with experience designing secure, scalable, and intelligent systems across AI, data engineering, and enterprise software. Currently leading Zero Trust identity architecture and agent security for AI systems, with hands-on work in MCP-based safety frameworks and compliance mapping to global standards such as NIST, HIPAA, and GDPR. Proven track record in multi-tenant platforms, workflow automation, and ontology-driven process mining, with strong expertise in machine learning production, AutoML, and TensorFlow. Adept at translating complex research into production-ready solutions and driving cross-domain innovation in fast-paced environments.

Experience

Sr. AI Engineer

Astha.ai • Palo Alto, CA
08/2025
Researched on the safety guideline for MCP based system and contributed on open source project SAFE-MCP (part of LINUX foundation).

Participated in desinged of Zero Trust Identity System for AI Agent.

Designed the compliance mapping with safe-mcp controls with existing standards (NIST, HIPPA, GDPR..)

Lead Backend Engineer

Autolab Technologies Pvt.Ltd. • Kathmandu, Nepal
07/2024 - 08/2025
Researched on data extraction technology for large scale data mining for Japanese Retail Gaint Misumi co.

Contributed on couple of iterations of spec matching software for mechnical parts.

Coordinated between bilingual team from Nepal and Japan.

Data Engineer

Alpas Technology Data Engineer • Kathmandu, Nepal
09/2023 - 07/2024
Worked on development of multi metric (100+) search engine optimization software from data layer to application layer.

Designed the columnar data warehouse schema for same project.

Skills

Software Infrastructure, Python Data Stack, Cross Domain Research

---

Education

Computer Engineering

Tribhuvan University, IOE, Pulchowk Campus
12/2022
Became the elected member of college NGO (LOCUS) and served as its software coordinator for 2022 tenure.

Co-Founded the Ed-Tech startup (GradeUP Education P LTD) to solve student study resource problem we faced during our time at college.

Wrote and Directed a play (hit of the day) at college event.

High School Diploma, Science Stream

Shree Amar Singh Model Secondary School • High School Diploma, Science Stream
05/2018

Languages

English, Hindi, Nepali

Certificates

Analyze Datasets and Train ML Models using AutoML, Structuring Machine Learning Projects, Sequences, Time Series and Prediction
